

Maximising Efficiencies

Invest Northern Ireland (Invest NI) is publishing an updated Guide 'A Practical Water Efficiency Guide for Businesses in Northern Ireland' and four sector-specific supplements covering: Food and Drink, Hospitality and Leisure, Construction and Engineering. A copy of the current Guide is available at: investni.com/water-efficiency

Invest NI is running a Water Efficiency Programme and is looking for businesses interested in implementing water efficiency measures in order to **save water and save money**.

The aim of the **Water Efficiency Programme** is to take up to 10 NI based businesses through a 10-step process to become more water efficient and save money.

The Water Efficiency Programme is running from August 2016 to January 2017 starting with a Launch Event to be held in early September 2016 to commence the activities.

Launch Event

To launch the Water Efficiency Programme and revised Water Guide, participating businesses shall attend a launch event to start the activities.

Water Audit

Each business shall receive a 2-day Water Audit focused on their business to identify and prioritise water saving actions.

Solutions Event

All businesses shall be invited to a Solutions Event to learn more about techniques that can improve their water efficiency.

Implementation

Each business shall be offered bespoke Implementation Support offering up to 5 days free consultancy support to drive implementation.

Close Event

All businesses shall be invited to a Close Event to showcase their success from improving their water efficiency and receive their 'Water Champions Award'.

The Northern Ireland Consumer Council shall be supporting the Water Efficiency Programme and welcomes applications from those businesses which implement water efficiency actions to receive their 'Water Champions' Award (bit.ly/water-champions).

A highly successful Water Efficiency Programme previously run in 2014 identified savings of £265,999 and water savings of 136,623 m3. 10 participant companies achieved the NI Consumer Council Water Champions Award.
