

Smarter water use, Increased Profits

Want to do something about the cost of water to your business? Invest NI can help you with our Water Efficiency Programme.

We are offering tailored support for up to 10 Northern Ireland based businesses.

You will benefit from:

- An expert external evaluation of your current practices relating to water usage.
- Key learnings on the importance of monitoring, measuring and controlling water consumption.
- Advice on both basic housekeeping and advanced water saving techniques and technologies.
- Networking and learning from other businesses at the events.

Businesses who participated in our recent programme achieved over £380,000 of cost savings and over 250 tonnes of CO2 savings.

The programme works like this:

- Information Event to kick start the activities and introduce you to water efficiency with a best practice guide.
- Fully funded Water Audit for each business, focused on identifying water saving actions.
- Solutions Event to learn about techniques to improve water efficiency.
- Up to 5 days of bespoke Consultancy Support focusing on solutions for each business.
- Showcase Event allowing participants to highlight water efficiency successes and receive their 'Water Champions Award' which is supported by the Northern Ireland Consumer Council.

The current Water Efficiency Programme is fully subscribed. Details and updates regarding future Water Efficiency Programmes will be advertised when they become available.

For help with water efficiency in your business contact the **Energy and Resource Efficiency Team** on **028 9069 8868** or **ere@investni.com**

Preference will be given to significant water users, with an energy and resource spend of over £30k per year.
